

BK 120A – COUNTERFEIT DETECTOR FROM TAY-CHIAN

Features:

- Paper transparency control.
- Banknote length control.
- Paper thickness control
- Quantity of magnetic.
- Position of magnetic.
- Infrared ink control.
- Recognition of images.
- Presence of thin metal foils control.
- Recognition of the printing process
- Equip with High quality sensors.

PRODUCT DESCRIPTION

Features:

- Paper transparency control.
- Banknote length control.
- Paper thickness control
- Quantity of magnetic.
- Position of magnetic.
- Infrared ink control.
- Recognition of images.
- Presence of thin metal foils control.
- Recognition of the printing process
- Equip with High quality sensors.
